

## ISystem modifications

- 1) **Marketing page:** Convert it to HTML code and add a button above it.
- 2) **Header:** Implement a mega menu with nested categories.
- 3) **Compare page:** Create a comparison page organized by category.
- 4) **Create** ISystem care page.
- 5) **Product Details:** If a user clicks on a specific color, display an image corresponding to that color.
- 6) **Create** "Buy Now" and "More Info" pages for the marketing page.
- 7) **Adjust** the price based on the selected color and model.
- 8) **Pre-Order** page.
